Section 11

Declaration of significantly contaminated land

Declaration Number 20091112; Area Number 3160

THE Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the Contaminated Land Management Act 1997 (the Act):

1. Land to which this declaration applies (the site)

Lot 122 in DP 876790, located at the northern end of Martin Street, Coramba NSW, in the local government area of Coffs Harbour, and the section of Martin Street adjoining Lot 122 in DP 876790, as shown in the attached plan.

2. Nature of contamination affecting the site:

The EPA has found that groundwater at the site is contaminated with fuel containing the following substances:

Petroleum hydrocarbons including benzene and toluene.

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in section 12 of the Act and has determined that contamination at the site is significant enough to warrant regulation under the Act for the following reasons:

1. Groundwater at the site is contaminated with petroleum hydrocarbons at concentrations exceeding ANZECC guidelines for the protection of aquatic ecosystems;
2. Contaminated groundwater is migrating into the Orara River and precluding beneficial use of the river; and
3. Contaminated groundwater may continue to migrate into the Orara River.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA. If the proposal satisfies the requirements of section 17 of the Act the EPA may agree not to issue a management order to the person or persons bringing the proposal.

5. Submissions invited

The public may make written submissions to the EPA on:

Whether the EPA should issue a management order in relation to the site; or

Any other matter concerning the site.

Submissions should be made in writing to:

NIALL JOHNSTON
Manager Contaminated Sites

Date: 5 March 2010

NOTE:

Management order may follow

Variation/Revocation

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (section 44 of the Act).

Information recorded by the EPA

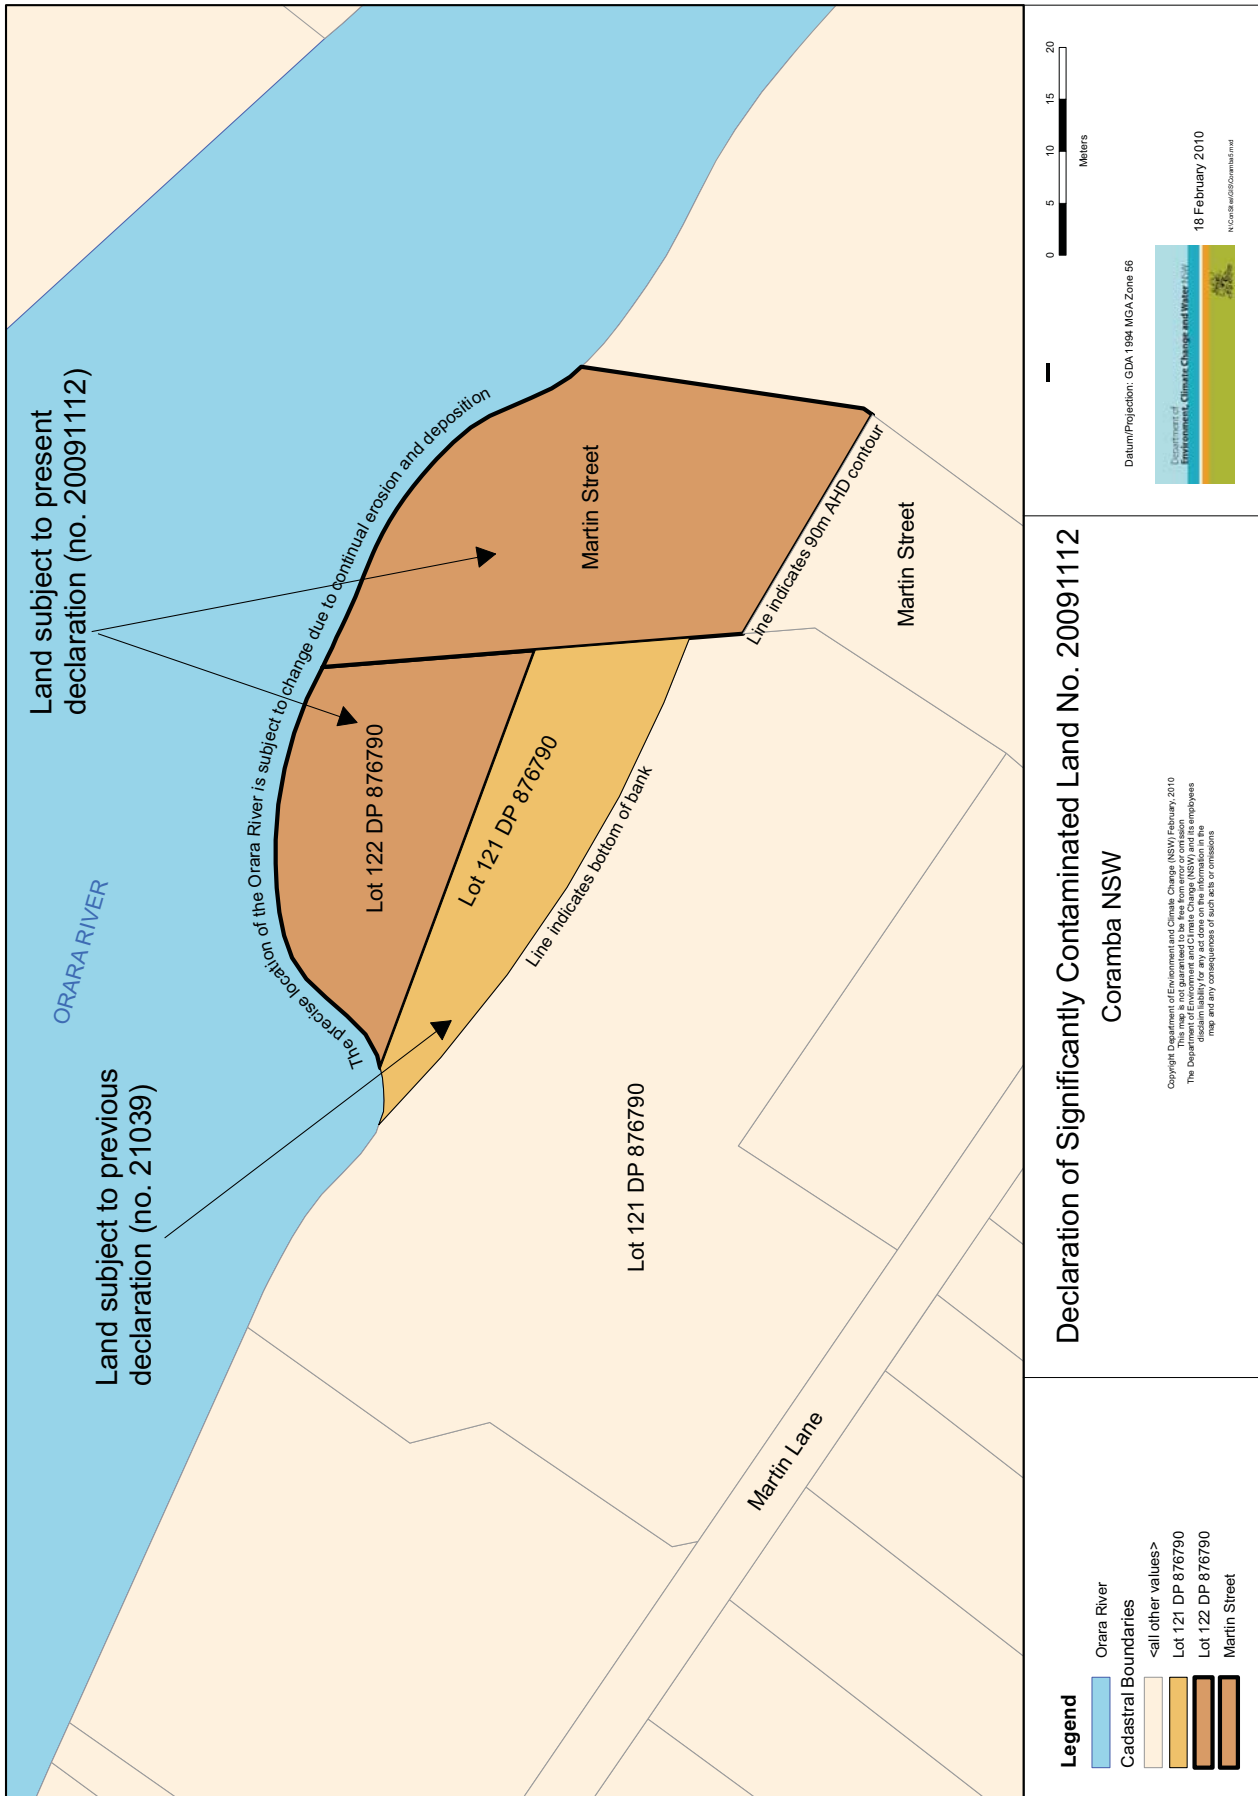

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to section 149 (2) of the Environmental Planning and Assessment Act that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the section 149 (2) certificate is no longer required.

Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
